

Project:

My idea is to create a blog Paris Guide for 2026 which will be composed of different articles about places to go, visit, where to eat or drink, in which district etc.

The models are :

- User: name, email, password
- Location: district, neighborhood
- Tags: cultural, nightlife, sightseeing
- Activities: museum tour, food tour, wine tour, city tour

Naming of the relations

- A **User** **hasMany** activities
- An **Activity** **belongsTo** a user (author of the article)
- A **Location** **hasMany** activities
- An **Activity** **belongsTo** a location
- A **Location** **hasMany** tags
- A **Tag** **belongsTo** a location
